
IMMEDIATE RELEASE: **Available December, 2009**

New from MWPS

Installation of Wastewater Treatment Systems

CIDWT-Installer

Designers and installers of wastewater treatment systems will find the latest information on planning, safety, site evaluation, construction, and water distribution, in this new reference available from MWPS.

Installation of Wastewater Treatment Systems provides a detailed explanation of the best standard practices for installation and startup of common treatment components, such as dosing systems and controls, media filters, aerobic treatment units, constructed wetlands, lagoons, chlorination units, soil treatment areas, evapotranspiration beds, drip and spray fields, and outfalls. The manual includes learning objectives, checklists, illustrations, data tables, a math overview, volume and slope intersection calculations, introduction to surveying, watertightness testing, installer glossary, This manual will directly benefit professionals who install onsite wastewater treatment systems, and also regulators and designers.

The ***Installation of Wastewater Treatment Systems*** manual was developed by the Consortium of Institutes for Decentralized Wastewater Treatment (CIDWT), supported, in part, by the National Decentralized Water Resources Capacity Development Project (NDWRCDP) by the U.S. EPA and WERF.

Installation of Wastewater Treatment Systems (CIDWT-Installer) is 8 1/2 x 11, 464 pages, with a coated stay-flat spiral binding. Cost is $68.00 plus shipping and handling.

Orders may be placed on-line at www.mwps.org, by e-mail at mwps@iastate.edu, by phone at 800-562-3618 or 515-294-4337, by fax at 515-294-9589, or by writing MWPS, 122 Davidson Hall, Iowa State University, Ames IA 50011-3080.
