

Whether it is your first time back to the campus as a recent alum or you will be returning after many years, we look forward to having you at our Animal Science Alumni Reunion. And, non-alums who have friends or ties to Animal Science are welcome as well. Time for visiting is the highest priority of the event. We hope you will plan to come and thus be reconnecting with classmates, fellow alumni, other supporters of the Department, and current and former faculty members, as well as learning something about what is happening in the Department, and just having some fun!

Optional tours of the Animal Science Complex begin at 4 p.m. Festivities then get going in the Great Plains Room of the East Campus Union with a social hour and silent auction, to generate scholarship dollars for next year, starting at 5 p.m. Food will be served at 6 p.m., and special recognitions start at 7:30 p.m. Scholarship recipients and donors will also be announced. Ample time for more visiting is planned following the time of recognitions. No-charge parking (excludes metered stalls) is available on campus starting at 4 p.m.

This is a ticketed event. For more information and to register, please go to <http://animalscience.unl.edu/web/anisci/anscalumni> or email [ansc@unl.edu](mailto:ansc@unl.edu) or call 402-472-3571. Or, simply return the attached registration form.

Since 1898, the Animal Science Department has worked alongside the livestock industries in serving animal agriculture. Alumni and other supporters have played an important role in the Animal Science Department through the years. Members of our former faculty and our emeriti faculty will be on hand to renew friendships, and our new faculty want to forge relationships like you have with those teachers who were positive influences on your life.

Our goal is to create a tradition with this event, building on it for alumni reunions in future years. This event has been planned by a combination of alumni, including both those working away from campus and those on campus. We hope you will join us in celebrating the heritage that we hold as Animal Science Alumni and help establish the tradition that emphasizes our heritage.

Thus, we are “rounding up” our alumni and supporters to celebrate our “heritage”, as noted in the logo on the front page. To further celebrate our heritage, we will initiate recognition of “Heritage Families”, those that have 3 or more generations of graduates in Animal Science. If you are part of a family that has 3 generations of graduates, or if you know of a family meeting this distinction, please forward these names to Merlyn Nielsen ([mnielsen1@unl.edu](mailto:mnielsen1@unl.edu) or 402.472.6406).

See you October 25<sup>th</sup> in Lincoln!
