

## What women have said about Annie's Project...

I just want to say thank you—So many of my fears and frustrations were resolved by attending this class. I needed it more than I realized. It has made a difference in my marriage and my joy of living on the farm.

2010 participant

I know how to do the outside chores. I also know that if I don't understand the bookwork, I can lose the farm. Annie's Project gave me the confidence to ask questions of my banker and accountant.

Risk Management Education for Farm and Ranch Women

The mission of Annie's Project is to empower farm women to be better business partners through networks and by managing and organizing critical information.

Six sessions will be held from 6 to 9 p.m. at the *Extension Office* at 972 G St. in Geneva, Nebraska. The 2013 dates are:

<i>January 16th</i>	<i>January 23rd</i>
<i>January 30th</i>	<i>February 6th</i>
<i>February 20th</i>	<i>February 27th</i>

A light meal will be served.

UNIVERSITY OF  
**Nebraska**  
Lincoln® EXTENSION

Annie's Project is a six-week course designed especially for farm women to help them develop their management and decision-making skills for their farms. Sessions include brief presentations, discussions focused on the participant's questions, and computer training to use spreadsheets. Annie's Project gives farm women the opportunity to learn from female agricultural professionals and network with other women in similar situations.

Annie's Project is named in honor of Annette Kolhagen Fleck, a woman that lived near a small town in Illinois. She spent her lifetime learning how to become a better business partner with her husband.

**Cost:** \$75 includes meals, a notebook, and support materials.

**Registration:** Pre-registration is required by **January 11th, 2013**. To facilitate discussion, enrollment is limited to 12.

**Contact:** Brandy VanDeWalle, Extension Educator at (402)759-3712, or email [brandy.vandewalle@unl.edu](mailto:brandy.vandewalle@unl.edu).

Annie's Project provides education in production, market or price, financial, legal, and human resources risk. At the end of six weeks, participants will —

- Understand personality types to communicate better with business partners
- Determine coverage levels for health, life, disability, and long-term care insurance
- Put family living expenses together with other costs of doing business on the farm
- Interpret balance sheets, income statements, and cash flow projections to make business decisions
- Evaluate crop insurance levels for their farms
- Use bid sheets to think through market signals for crop sales
- Review Farm Service Agency deadlines and implications
- Review Natural Resource Conservation Service deadlines and implications
- Understand how assets are titled and learn about estate planning tools
